How are Earth's Spheres Connected?
Activity Project-Based Learning

Activity: Earth's Spheres Walkabout

This Earth's Spheres lesson includes 1-2 class periods teaching material including notes and an interactive walkabout activity that gets kids moving and thinking about the interdependence between Earth's 4 Spheres- The biosphere, hydrosphere, atmosphere and geosphere. Includes:

- Power Point Presentation
- Student Note Sheet
- 20 Walkabout Cards
- Walkabout student answer sheet

Objective

5.ESS2.1 Develop a model using an example to describe ways the geosphere, biosphere, hydrosphere, or atmosphere interact

PE/Health 1:48pm - 2:39pm

the standard algorithm.

5.NBT.B.7 Add, subtract, multiply, and divide decimals to hundredths, using concrete models or drawings and strategies based on place value, properties of operations, and/or the relationship between addition and subtraction; relate the strategy to a written method and explain the reasoning used.

5.MD.A.1 Convert among different-sized standard measurement units within a given measurement system (e.g., convert 5 cm to 0.05 m), and use these conversions in solving multi-step, real world problems.
