Reading / Writing 8:30am - 10:15am Lesson Module 2. Lesson 1 Maps and Globes Reading Maps From page 1 to page 11 A map is a type of diagram. There are other types, such as Venn diagrams and timelines. A map shows how places are related. They can be made of paper or other materials, and they can even be electronic. A globe is a type of map. So is a flat map, a sea chart, and an electronic map. Lesson 2 <u>Continents and Oceans</u> <u>Maps and Globes</u> From page 12 to 21 Sentence Composing: <i>South America is bigger than Greenland. South America is smaller than Asia.</i> These two sentences may have contrasting points, so I need to choose a linking word to show that. I can use <i>but</i> in the middle, and I don't have to repeat the subject. <i>South American is bigger than Greenland but smaller than Asia.</i> I can use <i>although</i> at the beginning, but I need a pronoun. If I combine with <i>and</i> , I still don't have a great sentence: <i>Depressions are shown on physical maps, and they are areas of land below sea level.</i>
